

Chelsea, Friday 15 May

Brief for the day. Phone capture, contractor cover.

Hi [Name]

Friday 15 May, RHS Chelsea Flower Show. Two days to judging. I'm in Copenhagen so you're covering for me on the ground.

The day in short

Phone capture only, no kit needed. Hero is Michael Buck (Creepers' Head of Horticulture) on plot, judging-eve walk-through. 3 to 5 min rolling clip, landscape, quiet and observational. He's the face of Friday. Around that, 4 to 6 stories spread across the day: final touches, scaffolding coming down, designers stepping back to look. Capture for me, post nothing yourself. I sign off everything before it goes live.

What to shoot, what not to

Yes: people moments, hands, tools, tight specimen crops, build-week energy, designers in conversation.

No: full garden shots, finished reveals, anything compositional, BBC cameras or branding in frame. BBC have exclusive until press day Mon 18 May. Breaking that damages Creepers' RHS relationships for years. Capture freely behind the scenes, just don't post the reveals.

Slow, documentary, premium. People and process over plants. Phone footage is fine, the energy carries it.
